About Scented Crystals Ltd

Scented Crystals Ltd was started in 2006 after we discovered the wonder that is Scented Crystals. Since its creation Scented Crystals Ltd has become the UK's Premier Supplier of Scented Crystals, and supplies stockists across the UK. Scented Crystals are quickly becoming the preferred choice in home fragrance.

What are Scented Crystals/Rainbow Rocks?

Earth friendly room fragrance crystals that are as strong as candles, yet safe to your health and the environment. Scented Crystals or Rainbow Rocks are pure ionic salt crystals from the Caribbean Sea; coloured in rich hues and infused with pure oils to provide lasting fragrance.

With 15 Aromatherapy Fragrances and exciting colours designed to match any decor, Scented Crystals have distinguished themselves as the preferred solution to the fragrance needs of the world.

Our Scented Crystals are a decorative and functional alternative to candles, diffusers, and Potpourri, providing a longer lasting scent without fire hazards, electricity, water, or health concerns. Just set the Scented Crystal out in a nice glass dish, and let our pure essential oils fill the room. When the fragrance starts to die down (usually in about 2-3months) refresh your crystals with our refresher oils for another 3-4 months of fragrance.

Our fragrance oils are the truest and closest thing to nature that you will experience. They will help relax the mind and release stress from your body. Aromas are created by blending spices, herbs, leaves, flowers, woods, and essential oils. Some of the plants used in our oils include Caraway Seed, Jojoba and Oak Moss. They are all completely natural and contain no chemicals, added alcohols or animal by-products.

All Dyes used in Scented Crystals are environmentally safe and help maintain ecological balance. They are naturally produced from Flowers, Trees, Shrubs, Berries, Leaves, Insects and minerals from around the globe. Our dyes are non-allergenic, non-toxic and come from such sources as Indigo, Cochineal and Pomegranate.

Our pure ionic crystals are made from seawater in the Caribbean, these crystals give off ions that clean and energize the air. Our high grade, all natural, essential oils are the best quality aromatherapy oils available. We use environmentally safe processes to manufacture all our products. Scented Crystals will last forever, recharge the crystals with a splash of our refresher oils for a long lasting scent that family, friend, and co-workers love.

No other home fragrance products on the market offer the beauty and versatility of Scented Crystals.

Are Scented Crystals Safe?

Yes, The Scented Crystals with uncut fragranced oil smells great but tastes nasty, so as soon as it touches your tongue you would want to spit it out, leaving a bad taste in your mouth. Drinking juice or mouthwash can help eliminate the taste of the oil. Although natural, safe and non-toxic, care should always be taken and crystals should be placed out of reach of small children and pets because they look appealing and could be a choking hazard. Scented Crystals are non-toxic, no flames, no harmful smoke. Scented Crystals are for fragrance only.

How long do Scented Crystals Last?

Scented Crystals will retain their fragrance for up to three months (without adding replenishing oil) and five to six months over all depending on the environment conditions of the room. Direct sunlight and strong air exposure will cause the fragrance to evaporate faster but will not affect the ionic value.

Becoming A Rainbow Rocks Stockist ?

With no minimum order or set pack quantities there really is no reason not to give them a try. Simply fill out the online order form or contact us on 07801 721640 and we'll be able to advise on which fragrances sell best in your model of store.
